

Hood's Sarsaparilla

By virtue of its blood-purifying, nerve-strengthening, stomach-toning, appetite-restoring properties, it is the one Great Spring Medicine.

Get it to-day. In liquid form or chocolate tablets called Sarsatabs.

NO ONE PUNISHED IN TRIANGLE TRAGEDY

Last Chance for Law to Avenge Death of 116 Factory Girls in Fire Gone.

New York, March 21.—By direction of Supreme Court Justice Swayne, a jury in the criminal branch of the Supreme Court this afternoon returned a verdict in favor of Harris & Blanck, proprietors of the Triangle Shirt Waist Company, in whose factory 116 persons were burned to death one year ago.

The jury decided, following the instruction of the court, that the men had already been placed in jeopardy. Following this verdict all of the remaining indictments growing out of the fatal fire were dismissed. No one was punished for the fire or resultant loss of life.

SHE HAD READ 6,000 NOVELS

Woman Librarian Who Guarded Shelves 34 Years, Dies at 74.

Pawtucket, R. I., March 21.—Mrs. Minerva A. Saunders, who had the distinction of having read more than 6,000 novels during her thirty-four years' service as librarian of the Pawtucket public library, died to-day, aged seventy-four years. She read every novel that came to the library before allowing it to go on the shelves.

Wiley on Advisory Board.

Washington, March 21.—Dr. Harvey W. Wiley has been elected a member of the advisory board of the National Conservation Exposition, of which Clifford Pinchot is chairman. "The conservation of public health" will be the subject of Dr. Wiley's address at the exposition, to be held at Knoxville, Tenn., in the fall of 1913, for the preservation and development of the resources of the Southern States.

BANKS COME FIRST IN INVESTIGATION

Their Affairs Will Be Taken Up by Probers of Money Trust.

METHOD OF PROCEDURE

It Is Decided to Go Ahead Without Services of a Lawyer.

Washington, March 21.—An examination into the directorate, directorate relationship and stock books of the national banks of the United States will be the first move of the congressional investigation of the so-called money trust.

This decision was reached by a subcommittee of the Banking and Currency committee to-day. Accordingly two members of the committee, Representatives Stephens, of Mississippi, and Burdick, of South Carolina, were authorized to call on Comptroller of the Currency Lawrence O. Murray, and get his ideas of the best method of procedure in this direction.

Mr. Murray can give the committee the detailed information now in his office. It may take some days to prepare a compilation of this information in a form which the committee can grasp readily. The determination of the committee to begin its work at once prompted the assignment of two members to visit Mr. Murray.

Individual members of the committee are chafing under the criticism of their investigation which is heard about the House. The secrecy of the movements of the subcommittee and the silence which greets all requests for information have prompted some to criticize, and members of this committee do not relish it.

May Be Without Counsel. The committee spent much time looking for a lawyer to conduct its investigation.

A Valuable Suggestion Important to Everyone

It is now conceded by physicians that the kidneys should have more attention as they control the other organs to a remarkable degree and do a tremendous amount of work in removing the poisons and waste matter from the system by filtering the blood.

During the winter months especially, when we live an indoor life, the kidneys should receive some assistance when needed, as we take less exercise, drink less water and often eat more rich heavy food, thereby forcing the kidneys to do more work than Nature intended. Evidence of kidney trouble, such as lame back, inability to hold urine, smarting or burning, brick-dust or sediment, yellow complexion, rheumatism, may be weak or irregular heart action, warns you that your kidneys require help immediately to avoid more serious trouble.

An herbal medicine containing no minerals or opiates has the most healing influence. An ideal herbal compound that has had most remarkable success as a kidney and bladder remedy is Dr. Kilmer's Swamp-Root.

You may receive a sample bottle of Swamp-Root by mail, absolutely free. Address Dr. Kilmer & Co., Binghamton, N. Y., and mention the Richmond Daily Times-Dispatch.

One of the most eminent lawyers summoned to the committee has told it that it can proceed best in its own way. This idea has impressed itself on the committee, and it was practically agreed to-day to go ahead without a lawyer.

If the necessity of counsel becomes apparent the committee may renew its quest for suitable counsel. Chairman Pujo is absent from Washington at this time, and it is the belief of the majority of the committee that he favors an investigation without a lawyer.

Vetoed Bill Reintroduced.

Washington, March 21.—The Democratic wool tariff revision bill, levying a 20 per cent. ad valorem duty on raw wool, introduced to-day by Democratic Leader Underwood, will be reported to-morrow to avoid a caucus and thereby dodge trouble with advocates of free wool.

The measure is identical with that passed by the House last summer and after revision by the Senate vetoed by President Taft.

In the Ways and Means Committee to-morrow, the Republican substitute, which will be the basis of consideration by Republicans in both houses, will be first voted down, and later it will be introduced as a minority measure. The minority contends that the President would not use for veto the Democratic bill on the ground that it does not adequately protect the revenues.

The reintroduction of the bill vetoed by President Taft, with the elimination of the Senate amendments, will be used by the Democrats as the basis for arraignment of the Tariff Board.

In the report on the bill, which is being written by Mr. Underwood, an effort will be made to show that the board is a failure and that its report on wool was useless.

ROLLS PEANUT WITH NEEDLE

Football Guard Struggles Far in Hobble Skirt, but Gets in Club.

Cambridge, Mass., March 21.—Rolling an undressed peanut with a needle over an eight-mile course, while clad in a tightly-fitting hobble skirt with a large picture hat and high-heeled shoes is no easy accomplishment, but Hunter McGuire, of New York, the big Harvard football guard, performed this feat after considerable difficulty and many attempts. McGuire is a candidate for the institute of 1776 Club at Harvard, and was one of the many doing initiation stunts. Another student tried to measure a given distance using a live eel as a tape measure.

NEW WAR ON WHITE PLAGUE

Fire of Unknown Origin about 12:20 o'clock this morning did damage of about \$200 to a small grocery store at Twenty-ninth and P Streets.

THE WEATHER.

Forecast: For Virginia—Generally fair north; rain southeast; rain or snow southwest portion Friday; colder with a cold wave at night south portion; Saturday fair; moderate to brisk north and northwest winds.

For North Carolina—Rain, much colder Friday; cold wave at night; Saturday fair; moderate to brisk north and northwest winds.

NEW MAYOR OF BERLIN

DR. KARL STEINHILBER, Who has just been elected Mayor of the city of Berlin, which office he will fill for six years. He was born in 1864 in Nossach, in the Rhine Province. He studied at Basel, the Berlin Theological College.

thereby dodge trouble with advocates of free wool.

The measure is identical with that passed by the House last summer and after revision by the Senate vetoed by President Taft.

In the Ways and Means Committee to-morrow, the Republican substitute, which will be the basis of consideration by Republicans in both houses, will be first voted down, and later it will be introduced as a minority measure.

The reintroduction of the bill vetoed by President Taft, with the elimination of the Senate amendments, will be used by the Democrats as the basis for arraignment of the Tariff Board.

In the report on the bill, which is being written by Mr. Underwood, an effort will be made to show that the board is a failure and that its report on wool was useless.

Tells Consumptives How He Got Well

Tuberculosis is said to be curable by simply living in the open air and taking an abundance of fresh eggs and milk. Undoubtedly, some persons are benefited in this way, but the appropriate remedy for Consumptives is Eckman's Alternative. Do all you possibly can to add to strength and increase weight, eat wholesome, nourishing food, and breathe the cleanest and purest air—then, to the sensible thing of right living, add the tonic and curative effects of Eckman's Alternative. Read what it did in this case:

"Gentlemen: In January, 1909, I was taken with hemorrhages of the lungs. My physician, one of the leading practitioners, said that it was lung trouble. I took eggs and milk in quantities, but I got very weak, and I kept on working in the store. The doctors I stayed in the store, but I kept on working and prayed each day that I might get well. I believe my prayers were answered, for J. C. A. Lippincott, my employer (Lippincott & Co., Department Store, 506 to 511 Market Street, Wilmington, Del.), had learned of a remedy called Eckman's Alternative that had done great good, and upon his recommendation I began taking it at once. This was about June, 1909. I continued faithfully using no other remedy, and finally noticed the clearing of the lungs, which appeared to be old chunks of blood coming up. I now have no trouble with my lungs. I firmly believe Eckman's Alternative saved my life. I sent my spittle later to the State Board of Health to be examined for tuberculosis bacilli, and none were found. My mother died from Consumption when I was about two years old. I make this statement so that others may learn of the wonderful merits of Eckman's Alternative. I regard my recovery as being miraculous." (Signed Affidavit) JAS. SQUIRES.

Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles and in upbuilding the system. Does not contain poisons, opiates or habit-forming drugs. For sale by Owens & Minor Drug Company and other leading druggists. Ask for booklet of cured cases and write to Eckman's Laboratory, Philadelphia, Pa., for additional evidence.

WOLF MAROONED ON ICE

Chicago, Ill., March 21.—A wolf is marooned on an ice floe in Lake Michigan, two miles off Chicago Avenue. The news was received by Michael Mahoney, chief operator of the fire alarm, yesterday from Karl Jacobson, keeper of the two-mile crib.

"Send somebody out after him. Send a gunboat and shoot him, but please put him out. He's crazy and raising an awful fuss. We can't sleep and we can't get to him," pleaded Jacobson. The wolf floated in on the ice in the night, presumably from the uplake wilderness.

ARGUE FOR BEEF PACKERS

Counsel for Defense Declares Government Has Failed to Prove Monopoly.

Chicago, March 21.—Closing addresses to the jury were made by counsel for the defense in the trial of the packers charged with conspiracy to combine in restraint of trade, to-day.

Attorney M. W. Borders, representing the Morris group of defendants, and Attorney John Barton Payne, representing Edward Tilden, president of the National Packing Company, expected to close the case for the defense before the end of the day. It is expected that the case will go to the jury to-morrow afternoon.

The instructions of the court to the jury have been prepared.

"I thank God for the jury system," began Attorney Borders. "The evidence in this case does not come within ten miles of proving any offense or crime. All the government has in this case is a theory. The government lawyers, seeking fame and fortune, are attempting to win by cramming down your throats finely spun theories without regard to the facts."

"The evidence shows these defendants are in daily competition with 25,000 packers in this country. There is no monopoly. The business is of such a character that no set of men can control it. There is no combination. There has been no injury to the public."

DINES UPON 64 RAW EGGS

Wilkes-Barre, Pa., March 21.—William Wright, of the Wilkes-Barre police force, claims to be the champion egg eater. He ate sixty-four raw ones at one meal, and it is said he will challenge "Hungry Joe" of Bloomsburg, to a contest. "Hungry Joe" has the reputation of devouring three chickens and four loaves of bread at one sitting.

MACK WILL NOT ATTEND

He Wants Tennessee Democrats to Settle Own Troubles.

Hot Springs, Ark., March 21.—Norman E. Mack, chairman of the Democratic National Committee, is of the opinion that the Democrats of Tennessee can best settle their differences without outside influences, and for this reason declined to attend the harmony meeting to be held in Nashville to-morrow. In a communication addressed to the Democrats of Tennessee to-night Mr. Mack urges the necessity of a settlement of factional differences in Tennessee and points out that the result of to-morrow's meeting will have an important bearing on the national political situation.

Disappointment Keen.

Nashville, Tenn., March 21.—Many editors arrived in Nashville to-night to attend the mass-meeting of Democrats called for to-morrow to discuss a plan to unite the party and overcome the action of rival State committees. It is said that at least six Tennessee editors will participate in this movement to harmonize the party and upset so-called machine and boss rule. Chairman Mack's refusal to attend the meeting caused keen disappointment.

Probing Cost of College Life.

Ithaca, N. Y., March 21.—In an effort to ascertain what the average college course costs, President Schuchman has sent to every student registered at Cornell, enclosing a long list of questions. The answers will be tabulated and interpreted by the college statistician, Prof. Wilcox.

OPERATORS FIRM AGAINST MINERS

(Continued from First Page.)

wages. It is believed that they now will be satisfied with, and that the government will be willing to concede inclusion of the 5-shilling and 2-shilling minima. Altogether tension has been greatly relaxed, and the debate may be carried into next week. It would not be surprising if the government's original program was carried out, and the bill became a law by Saturday.

Unless, as is now hoped, the miners resume work in the beginning of the week, the dislocation of trade and the distress will become unprecedented. Every day sees further curtailment of business and railway services.

From all great industrial districts come tales of increasing destitution, intensified by cold and inclement weather.

The Paisley thread mills closed down to-day, letting out 15,000 workers. The ports are all congested by idle shipping. It is estimated that tonnage amounting to 100,000 is lying idle at the Southampton docks, including the liners Oceanic, Majestic, St. Paul, New York and Philadelphia.

Heads Broken in Riot. Glasgow, Scotland, March 21.—A pitched battle occurred to-day at Kirkcaldy, in Dumfriesshire, between striking miners and the police. Many heads were broken among the combatants. The police ultimately routed the miners, of whom ten were arrested.

The miners, incensed at nonunionists' work, had attacked the nonunionists and were beating them severely when the police appeared on the scene. A series of police charges ensued, in which the policemen's clubs were freely used.

New Bank for Macon.

Washington, March 21.—Comptroller of the Currency Murray to-day approved the application of the Macon National Bank, of Macon, Ga., with a capital of \$200,000, to organize. A Federal charter will be issued in a few days.

Next Sunday's Issue Will Be Up to the Standard

"THE FALL OF THE CONFESSOR," by ALICE ORMOND, is the story of a young girl who confessed her love for one man to another man. There are several logical results that could follow such action. Which one the author followed in solving her problem you can only tell by reading the story.

JENNIE ALLEN, in a side-splitting essay on economy, says that "when you're tempted to rob Peter to pay Paul, don't ask no advice of Paul. He may be biased." She says many things equally good. Don't miss this feature. It's great.

To some men the responsibilities of married life appear too heavy. Such a man is the principal character in E. CLIFFORD SMITH'S story, "THE WELCHER." The results of his welching and the efforts to undo them form the basis for a tragic story.

The love affairs of famous men and women have made many otherwise dull pages of history sparkle with human interest and scintillate with life. Next Sunday DESHLER WELCH tells of the love of George IV. for the Widow Fitzherbert.

If you were a millionaire, would you have a hobby? If so, what would it be? For your guidance—in case you should ever become a millionaire—let us tell you next Sunday of one millionaire's hobby and how it saved his life.

The Illustrated Times-Dispatch Magazine Makes a Dull Sunday Bright—A Bright Sunday Brighter. Be Sure to Get It With Next Sunday's The Times-Dispatch.
